

JOEY DE KORT

JAVA DEVELOPER IN BARCELONA

PROFILE

Hi I'm Joey! I switched careers in 2021, going from sales to development. First, I followed a full-time one-year program to learn Java. After graduating, I got a job as a Java instructor. While this is a great job, teaching is not where my passion lies. I feel happiest when I am developing and testing, which is why I am looking for a job as a developer.
